

A QUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times, "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe iron. Physicians recognize iron as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS no perfect, satisfactory iron combination had ever been found. BROWN'S IRON BITTERS, the teeth, cause headaches, or produce constipation—all other iron medicines do. BROWN'S IRON BITTERS cures indigestion, biliousness, weakness, dyspepsia, malaria, chills and fevers, tired feeling, general debility, pain in the side, back or limbs, headache and neuralgia—for all these ailments iron is prescribed daily. BROWN'S IRON BITTERS, however, does not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by the first symptom of ailment is relieved. The muscles then become firmer, the digestion improves, the bowels are active. In women the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious. Physicians and Druggists recommend it. The Genuine has Trade Mark and crossed red lines on wrapper. TAKE NO OTHER.

WASHINGTON NEWS NOTES

A SUMMARY OF THE HAPPENING AROUND THE CAPITAL.

Offering a Reward for Designs for New
Silver Coins—No Selections Made for the
Vacant Treasuryship—First Appoint-
ment in the Commerce Commission.

WASHINGTON, April 9.—The director of
the mint has, with the approval of the sec-
retary of the treasury, issued a notification
to artists throughout the country, that an
award of \$500 will be given for accepted de-
signs for silver dollars and minor coin. It is
the purpose of the department under the
law of 1873, to adopt new and more artistic
designs for the dollar, half dollar, quarter
and dime, and five and one cent pieces.

No Appointments.

WASHINGTON, April 9.—It is stated to-day
that no selection has yet been made for the
treasuryship or second comptroller and
that the president will not be able to make
any of the important pending appointments
at once. The announcement of the appoint-
ment of a minister to Austria and circuit
judge for Illinois are, however, expected
very soon.

Dry Tortugas Dispute.

WASHINGTON, April 9.—The state depart-
ment has as yet no correspondence with
Great Britain, in reference to the claims
against Haiti and Dry Tortugas dispute.
The advisability of entering upon a corre-
spondence on this subject is under considera-
tion and the former negotiations are being
reviewed.

Clerk of the Commerce Commissioners.

WASHINGTON, April 9.—Mr. E. L. Pugh, a
son of Senator Pugh, of Alabama, has been
appointed to the clerical force of the inter-
state commission, and entered upon his duties
this morning. This is the first clerical ap-
pointment made.

A General Denial.

AUBURN, N. Y., April 9.—In an affidavit
recently made and published in a New York
evening paper, one Thomas Shot, purporting
for eleven years and until last month to have
been a keeper in the Auburn state prison, gives
an extended detail of cruelties and abuses
practiced therein. The prison labor reform
commissioners of the state of New York deem
it a duty to state upon competent
examination and affidavits of prison officers,
that there is no just foundation for any of
the statements relating to cruelties. There
has been no convict or keeper by the name of
Shot in the Auburn prison during the past
eleven years or ever. The testimony of many
convicts, some of them undoubtedly
incorrigibles, do not sustain or bear out the
charges made. There is no separate or offi-
cers mess room or boarding carried on at this
prison, nor has there been for the past six
years.

Work of Pirates.

ATLANTIC HIGHLANDS, N. J., April 9.—A
strange boat came alongside the wharf here
last night, the crew landed and commenced
loading up coal and wood from the dock.
Capt. Rowe, who was in charge of the dock,
ran back and alarmed the town, but by the
time the citizens could get there the sloop
had pulled out 400 feet from the shore and
dropped her anchor. When the people ap-
peared the men on the boat began to pepper
them with powder and shot. Notwithstand-
ing a brisk fusillade the town people put forth
in boats to capture the pirates. The latter,
however, hoisted their anchor and sailed
away. All efforts to discover the name of
the sloop or who the men were have so far
been unsuccessful. The coal and wood be-
longed to the New Jersey Central railroad.

It Was Some Other Man.

NASHVILLE, Tenn., April 9.—About
eighteen months ago a man named Patrick
Thompson mysteriously disappeared near
Fayetteville, and afterward what was
thought to be his body rose to the surface in
Elk river. The body had been cut open and
filled with stones so as to sink it and the dis-
placement of these caused it to rise. A man
named Warren was suspected of having
killed Thompson, and Warren has since gone
to Texas. The jury of inquest decided that
the body was Thompson's and it was buried.
Now Thompson's brother, who lives in Giles
county, has a letter from the supposed dead
man, dated Russellville, Ky., April 6, saying
that he has been working as a trackman on a
Kentucky railroad ever since his disappear-
ance.

Condition of Wheat in California.

SAN FRANCISCO, April 9.—The produce
exchange gives the following as the sub-
stance of its reports from all the wheat grow-
ing counties of the state on April 1. Ac-
cording to summer fallow considerably
below the average, but this part of the crop
is in good condition, and with rain should
give a good yield. Total acreage seeded is
less than last year. Late grain is beginning
to feel the dry weather. In some sections it
is beyond hope, notably south of Modesto.
There were copious showers yesterday in
northern and central California, but none in
the south, where rain is most needed.

Funeral of a Chicago Pioneer.

CHICAGO, April 9.—The oldest female set-
tler in Chicago was borne to the grave this
morning. This was Mrs. Harriet Austin
Murphy, who had resided here continuously
since 1830, and who was also the oldest living
member of the Baptist denomination in this
city. Funeral services were held at the fam-
ily residence on West Adams street prior to
the removal of the remains to the cemetery,
and the house was thronged with old settlers
who had welcomed the deceased at their re-
unions for more than a quarter of a century.

Chicago Boodlers.

CHICAGO, April 9.—Michael C. McDonald
appeared in the criminal court this morning
as surety on the bonds of ex-Commissioner
Van Pelt and Ed. McDonald for \$15,000 and
\$6,000 respectively. There are ten additional
indictments against Van Pelt for conspiracy
and one for bribery. Ed. McDonald has six
new indictments against him. Alphonse J.
Walker also gave bond to-day for \$1,000 on
one indictment for conspiracy, and Chris.
Koelling bonded in \$5,000 on his additional
conspiracy indictment.

Wild With Excitement.

WABASH, Ind., April 9.—Natural gas was

struck at 7 o'clock last evening at JONESBORO,
Grant county, at a depth of nine hundred
feet. The flow is very strong, the gas pres-
sure being fully three hundred pounds and
constantly increasing. The surrounding
country is brilliantly lighted by the escaping
gas, and the people of Jonesboro are wild
with excitement. The drill in the well in this
city is down one hundred feet, and the pros-
pects are excellent.

A Novel Contest.

GRAND RAPIDS, Mich., April 9.—M. J.
Dunn, of Detroit, beat Burt Harrington, of
this city, in a match for \$200 a side, at
Powers' opera house, last evening. Dunn
turned 100 horse shoes in one hour and
thirty-three and one-half minutes. Harring-
ton had twelve shoes but half done. Dunn
goes to Cincinnati to-day to meet William
Cain for \$500 a side.

CRUELTY TO INSANE PATIENTS.

What the Finding of a Dead Woman Has
Led to.

SPRINGFIELD, Mass., April 9.—The body of
a woman was found on Sunday about a mile
from the Prescott almshouse, in the town of
New Salem. It was clad in a light calico
dress, hardly any underclothing and a light
shawl. It proved to be the body of Mrs.
Abby Lindsay, an insane pauper, forty-eight
years old, who made her escape from the
Prescott almshouse on March 5 in a blinding
snow storm. She wandered off and was
never seen alive again. The master and
matron of the house are Mr. and Mrs. Wal-
ter T. Vaughn, and they made no effort to
ascertain the fate of the woman. Some of
the neighbors reported the case to the state
board of health, and a visitor came up from
Boston last week to investigate. A scouting
party was organized, and a few weeks after
death the body was discovered with the flesh
all picked off the face and the eyes picked
out.

The master admits that as a precaution to
keep her from escaping he had been in the
habit of fastening to her ankle a convict's
ball and chain. The ball weighed fifty
pounds and the chain was six feet long. An-
other favorite way of punishing this poor
woman was to keep her head under water
until her face was black. A horsewhipping
was thrown in occasionally. The poor house
itself is in a filthy condition. An investiga-
tion is making, and the full extent of cruelty
practiced at this institution in the name of
charity will soon be known. Several deaths
have taken place there during the last two
years.

Temperance Women in Chicago.

CHICAGO, April 9.—The leading spirits of
the Women's National Christian Temperance
union, which has its headquarters in this
city, are not at all discouraged by their
defeat in Michigan. They claim that the
apparent defeat was in reality a decisive
victory, that the indications point to a
fraudulent count, and that at all events the
small majority which is claimed by the op-
ponents of the constitutional amendment, is
full of encouragement for the future. They
will persevere in their work, and pro-
pose to make the most earnest campaign this
fall in the history of the organization.

Irremovable Priest.

NEW YORK, April 9.—It is understood that
Archbishop Corrigan has received from
Rome authority to suspend pastors, who by
the Baltimore council were made "irremova-
ble." The extraordinary power thus granted
is expected to be used in strengthening the
archbishop's hands in his conflict with Dr.
McGlynn's supporters. The influential Catho-
lic paper, the Freeman's Journal, hereto-
fore independent in the quarrel comes out
this week with a strong editorial, condemn-
ing what it calls the "McGlynn Protestant
Clique."

Singular Death.

CINCINNATI, April 9.—Katie Walters,
aged ten years, of 10 Bellevue street, died
Wednesday night from blood poisoning. Last
Friday she was in good health. Saturday
she had a tooth pulled by Dr. A. E. Barnes,
of Vine and Twelfth streets, but a small
piece of the root remained in the jaw. That
night her pain grew intense, and the head
and mouth became badly swelled and discol-
ored. Medical skill proved of no avail, and
the little sufferer died from blood poisoning.
An investigation will be made by the cor-
oner.

Prohibition Effects the Whisky Market.

CHICAGO, April 9.—The executive com-
mittee of the Western Export association
held its monthly session at the Grand Pacific
hotel and continued the present schedule for
the ensuing month which is four cents as-
sessment on each gallon of whisky and a
running capacity of 30 per cent. Owing to
the prohibition movement the liquor market
has been somewhat affected and the dullness
of the local or domestic market has caused
an increase in the amount of whisky ex-
ported during the past month.

A Husband's Crime.

NEW YORK, April 9.—William Thompson,
of King's Bridge, reported to the police station
there that his wife, Mary Thompson, had
been shot through the head and killed. A boy
named Harry Colby said that he saw Thomp-
son going into his house about 4 o'clock carry-
ing a revolver. Shortly afterward he
heard a shot and a few minutes later Thomp-
son came out and went to the police station.
Thompson was arrested and held pending an
examination. The couple had been married
only about eleven months.

All at Sea.

KEENE, N. H., April 9.—Manufacturers
throughout southwestern New Hampshire are
much exercised over the effect of the inter-
state commerce law and are all at sea. The
general opinion is that the law is more fa-
vorable to railroad than to shippers. The
Cheshire railroad has adopted the New Eng-
land classification for all New England busi-
ness and the official classification on all other
business.

Murdered By a Chinese Cook.

CHICO, Cal., April 9.—It is reported
that at St. John, Colusa county, last night,
Mrs. Joseph Billion was shot dead and a lady
and gentleman of her family wounded by a
Chinese cook. The murderer fled, pursued
by the excited populace.

Sawmill Boiler Goes Off.

PARKERSBURG, W. Va., April 9.—The
boiler of William Morris' sawmill, near Har-
risville, exploded yesterday, killing J. Scott,
A. Lindsay, G. N. Williamson and an un-
known man, and injuring three others.

TENEMENT HOUSE FIRE.

TWENTY-THREE VICTIMS OF THE FIRE FLAMES.

Two Hundred People Awakened at Mid-
night to Find Themselves Surrounded
By Fire and the Stairways Rendered Im-
passable By the Flames—The Victims.

NEW YORK, April 9.—There was a terrible
scene of excitement late last night in the
tenement house 12 and 14 Essex street, re-
sulting from a fire which broke out at 11:40
in the basement of the building. The flames
rushed up the stairways, front and rear, and
cut off the escape of the inmates who were
all asleep on the floors. When they were
aroused a deadly peril faced them.

The flames had possession of the stairways
which had been rendered impassable while
they slept unconscious of their danger. There
was a wild rushing to and fro, the men shout-
ing for help and the women and children
screaming and crying. Those who preserved
their presence of mind went to the fire
escapes which were on both the front and
rear of the building, and for a time the bal-
conies of the escapes were alive with human
beings fleeing for their lives. Many were
saved by means of the escapes. Others of the
affrighted tenants made their way to the
roofs of the buildings where they waited and
shouted for help. In making their way out
of their apartments many of the poor people
were compelled to pass through the flames,
which had mounted all through the stair-
cases and broke out of the roof.

An alarm brought a section of the fire de-
partment to the burning tenements. When
the firemen learned that there were lives in
peril they rushed to the scene with the zeal
for which they are distinguished. Clamber-
ing up the fire escapes the crews of hook and
ladder companies No. 6 and No. 18 gained the
roof. There they found a number of women
and children who had been more or less se-
verely burned in their rooms, but who had
escaped to the roof. The injured were
wrapped in blankets and quilts and carried
down to the street, where they were given
shelter in the neighboring houses until the
ambulances which were summoned arrived.
Dr. Edward O. Hylan and two ambulances
from Gouverneur Hospital arrived promptly
and were followed by one from
Bellevue and another from the Chambers
street hospital.

The injured men, women and children were
tenderly lifted into the ambulances and
driven with all speed to the hospitals. The
ambulances from the Gouverneur slip hospi-
tal made several trips to and fro, and be-
fore 1 o'clock this morning thirteen persons,
six women, four children, one boy and two
men, were under treatment there. Two men
and a girl were taken to Bellevue hospital,
and there were others taken to the Chambers
street hospital. All these poor people are ter-
ribly burned and some of them are fatally
injured.

The house is what is known as a "double-
decker" that is a front and a rear house on
the same lot, with a small space between the
buildings. There is an alley way running in
from the street for the accommodation of the
tenants living in the house. There are ac-
commodations for four families on each of
the five floors of the tenement, or forty fam-
ilies in all. There were probably 300 per-
sons, men, women and children, housed un-
der the roofs of these buildings, when the
fire broke out.

The fire started in the basement of 12 Es-
sex street, which is occupied as a bakery by
a man named Levi. This bakery runs
through from front to rear under both the
buildings; and there was before the fire a
thin wooden partition running through the
center of the bake shop. The fire is believed
to have been caused by an over-heated oven
in the rear portion of the bakery, and owing
to the peculiar construction of the building,
the flames at once attacked the stairway of
both the front and rear houses. There was
more fire in the rear than in the front build-
ing. As the flames ascended they spread on
each side of the narrow stairway along the
narrow halls, and thus from the outset es-
cape by the stairs was cut off. Chief Shay,
of the fire department, said this morning
that but for the fire escapes on the front and
rear of the houses a hundred lives would
have been lost.

According to the latest reports the number
of the victims of the fire is twenty-three.
Nearly all the victims will be married or
marked for life. They are principally
women and children. One of the victims, a
girl of thirteen, will probably die.

The following is the list of the victims: T.
C. Schumann, aged ten, dead; Mary Schum-
mann, forty-four years old, mother of the
girl, is very badly burned about the head;
Betsy Schumann and her four-year-old child,
burned about the hands, head and chest;
Sarah Schumann, another daughter, aged
thirteen years old, badly burned about back
of head and both legs, will probably die;
Rachel Schumann, of the same family,
twenty-one years old, burned about the face
and badly disfigured; Lei Krakoff, thirteen
years old, all the skin burned off her hands
and lower arms; her face and head are badly
scorched; Lena Zimmerman, twenty-eight
years old, burned about head and
arms, but not seriously; Isaac Zimmerman,
his two-year-old child, burned
about the face and arms, will probably die;
Jacob Korako, thirteen years old, scorched
about the head and horribly burned down
the legs, condition serious; Dora Kokaka,
his one-year-old sister, slightly scorched about
the face; Rebecca Weiss, aged thirty-three,
badly burned about the head and face, her
left arm and both feet are scorched, will prob-
ably die, she lies all wrapped up in a cot be-
side her seventeen-week-old child, Daisy,
who escaped without injury; Ida Weiss, an-
other daughter fourteen years old, suffers
from burns around the arms and legs; Mor-
ris Rosenberg, burned about the head and
hands; Hannah Kopinski, forty years old,
head and arms severely burned; Adolph
Kopinski, her three-year-old son, burned
around the arms and head, severely; Ru-
dolph Kopinski, another son, burned about
the face and hands; an unknown female
child lies in the hospital unconscious, she is
so badly burned that it is impossible to iden-
tify her and but little hopes is entertained of
her recovery; Harry Clark, slightly burned
Harry Sumbar, slightly burned and Michael
Sumbar burned slightly.

This fire has had the effect of putting all

the tenement residents of the east side in a
fever of excitement.

The police this morning had their hands
full in keeping back about 10,000 people who
besieged the burning tenement and adjacent
streets. Although there is but one death re-
ported so far from the fire, it is uncertain
how many of the burned will succumb to their
injuries.

At the scene of the fire this morning the
police had thoroughly inspected the building
and ascertained that there were no dead
bodies in the ruins as reported in some of the
morning papers.

Another Narrow Escape.

NEW YORK, April 9.—A fire this morning
in the five story building, 122 West Twenty-
fifth street caused a loss of \$8,500. The fire
started on the second floor occupied by J.
Moran as a carpenter shop, which was full
of shavings, and they blazed up so suddenly

that ten men there had barely time to hurry
down stairs. Before the men at work up
stairs on the floors occupied by Hoffman &
Stueler, bar fixtures, and Reed & Keller,
cabinet makers, could descend, the fire had
seized on the stairs. Half a dozen persons
braved the fire and slid or rolled past the
flames but in Hoffman & Stueler's on the
upper floors seven men were caught as in a
trap. After considerable difficulty they
were all rescued in an exhausted condition
by the firemen. They revived speedily in the
air.

Fire in a Restaurant.

CHICAGO, April 9.—Fire originated in the
basement of the building 75 and 75 East
Randolph street about 10:15 last night. It
was confined to the basement and first floor,
occupied by the Central restaurant, and af-
ter a two hours' fight was subdued. The
losses will aggregate about \$30,000; insurance
about \$10,000.

At Addison, New York.

ELMIRA, N. Y., April 9.—Several buildings
at Addison were burned at midnight last
night. The loss is \$40,000 to \$60,000. In-
surance unknown. C. J. Jennings, dry
goods, losses \$17,000.

Fire in a Ferryboat.

NEW YORK, April 9.—The ferryboat Pas-
sage of the Erie Railroad company, was
badly damaged by fire at the company's
slip, West Twenty-third street.

AN OCEAN DISASTER.

A Newfoundland Barkentine Goes Down,
and Five People Drowned.

HALIFAX, N. S., April 9.—The particu-
lars of the destruction of the Newfoundland
barkentine Susan, Capt. Ryan, from St.
Johns to Barbados, have been received here.
The disaster occurred at noon on Saturday
last while the vessel was attempting to clear
Tennessee Head, Newfoundland, and the
bark went down so quickly that but for the
timely arrival of another vessel, the barken-
tine Muriet, Capt. Joy, not a soul could have
been saved. The Muriet was beating close
by and in ten minutes was on the spot, and
quickly rescued the three survivors.

The Susan was attempting to weather a
iceberg off Cape Broyle when the accident
happened. The failure of the vessel to
weather the berg is attributed to the failure
of the sails to work. The halyards were
frozen in their blocks and neither the main
sail nor spanker could be lowered so as to let
the ship's head fall clear in time and she
struck head on sinking almost immediately.
The Susan had a crew of eight all told. The
drowned are: Michael Ryan, captain, of St.
Johns; John Gaul, mate, of St. John's;
Thomas Millard, steward, of Ireland; John
Annin, seaman, of England, and Frank Dil-
lon, Riverhead, N. E.

Smallpox in Chicago.

CHICAGO, April 9.—A case of smallpox
was reported yesterday to the health depart-
ment by Dr. Montgomery, medical inspector
of the west division of the city. The patient
is an Italian laborer named Joseph Casselli,
who is one of ninety immigrants who ar-
rived in Chicago April 1, from New York.
They came to this country in the Anchor
line steamer Alsatia with about seven hun-
dred other Italian immigrants. Two cases
of smallpox broke out on board of the
steamer, and when she arrived in New York
she was quarantined for a day and night,
when most of the passengers were allowed
to land. Casselli and his companions came
on to Chicago and scattered through the
city. The house where Casselli lives has been
quarantined, and every effort will be made
by the authorities to prevent the spread of
the disease.

A Maniac Mother.

LAFAYETTE, Ind., April 9.—Mrs. Hum-
baugh, a widow, has become insane and is
now in the hospital at the jail. Some days
ago her ten-year-old boy disappeared. It
was at first thought that the lad, who was
pretty tough for one of his years, had run
away, but during the last few days the
mother has talked almost incessantly about
her boy, at times asking what would be done
to her for killing him, at others saying that
a strange man came in the night and mur-
dered him, threatened her if she ever told,
and that the next day she took the body to a
remote spot and buried it. Many fear that
the mother may have killed the boy in a mo-
ment of insanity and buried him. Searching
parties have looked all over the place,
dragged the stream and examined the cistern
but can find no trace of the boy.

A Fight to a Draw.

CLEVELAND, April 9.—Quite an interest-
ing prize fight occurred last night in a barn
in the suburbs of this city between Ed. Mc-
Donald, of Youngstown, O., and Ed. Dillon,
of Cleveland, for \$300 a side. Two gloves
were used, and the contestants
slugged each other unmercifully for some
time. The match was at length declared a
draw.

Memorial Oration on Beecher.

NEW YORK, April 9.—Dr. Parker, of Lon-
don, has been invited to deliver a memorial
oration in New York upon Henry Ward
Beecher, and has written in reply that he
will gladly do so if possible. It is thought
that the oration will be delivered on June 24
in the Academy of Music.

Shot By a Florentine Rifle.

PITTSBURG, April 9.—In Allegheny last
evening, while shooting with a Florentine rifle,
Albert Freisel, aged nine years, was acci-
dentally shot and instantly killed by his
playmate, Florence Parke, aged fourteen.
Parke is held, pending the result of the in-
quest.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.

RATES OF SUBSCRIPTION.

THE DAILY BULLETIN will be delivered to any part of the city at 6 cents a week, or one year for \$3.

THE DAILY BULLETIN to any postoffice in the United States, postage prepaid, at twenty-five cents per month or three dollars per year.

SATURDAY EVENING, APRIL 9, 1887.

The Gas Meeting.

The natural gas meeting in the Council Chamber last evening was well attended. The articles of incorporation were changed so that the officers of the company are to be chosen by the stockholders.

Speeches were made by Thomas A. Davis, J. C. Owens and J. James Wood in favor of the undertaking and urging prompt action. Mr. Owens, who had just returned from a trip South, entertained the audience with an interesting and amusing account of some of the "booming" towns down there. Mr. Owens evidently considers Maysville as good as any of them, and a great deal better than some of them. Another meeting will be held next Monday night.

A suggestion was made that all subscribers double their stock, but it didn't take.

At the time of adjournment two hundred and sixty-five shares had been subscribed—\$2,650.

Isaac M. Lane, John Heiser, William Wormald, James F. Robinson and Samuel B. Oldham were added to the soliciting committee.

Now is the time to act, and if the money isn't subscribed now, all other schemes and proposed enterprises will likely fail. A failure of the gas undertaking will throw a damper on all others.

HON. E. KENTON, Democratic nominee for Representative in Robertson and Nicholas counties, was here yesterday. Mr. Kenton's election is assured. The temperance folks have endorsed him, and the Republicans will not oppose him. He is a lucky politician, and a good man. He has been Sheriff of Bracken and Robertson, and was elected without opposition in each county.

THE editors of the Republican are the only two men in Maysville who are at all troubled about the BULLETIN's "pewter plates." Their blowing is all done with the sole aim to benefit themselves, and not in the interest of a single, solitary individual or class of individuals outside of the Republican office. The people of Maysville—the workingmen of Maysville—are too sensible to be bamboozled by such chaff.

ED. MENTER, a musician of considerable prominence, died recently in New York. He was well known here and at Germantown, where he played years ago at the fair, and his friends will regret to learn of his death. George T. Tudor writes that he attended Menter's funeral, at which the music was furnished by a band numbering seventy or eighty players.

MR. C. B. PONTZ's motion made in Council, Thursday night, to have a detailed statement of the city's indebtedness prepared was a move in the right direction. The matter ought to have been attended to long ago. But very few of our citizens know just how much Maysville owes.

Just received, a choice line of ladies' and children's hats in the very latest styles and shapes at prices ranging from 40 cents up. My patrons are respectfully invited to call and examine.

MISS ANNA M. FRAZER.

CHARLES OWENS, who has tended bar at the Central Hotel for years, will open a saloon of his own in a few days in the rooms adjoining James & Wells', on Market street. Charlie is an old hand at the business.

WM. WALLINGFORD has removed his grocery from the corner of Second and Commerce streets to Mrs. Mary J. Conrad's store room on the south side of Second, east of Commerce, Fifth ward.

DAVIS & SMITH will remove to the "Red Corner" building, north-east corner of Second and Commerce streets, Fifth ward, and open out a first class meat store next Monday or Tuesday.

HOPPER & MURPHY,

No. 43 Second Street,

MAYSVILLE, KY.

Death of Judge Fontaine T. Fox.

DANVILLE, Ky., April 9.—Hon. Fontaine T. Fox, Sr., of this city, is dead. He was known to every one in Ohio and Kentucky both as a jurist and a gentleman. He was born in Madison county in 1802. When a boy he moved to Somerset, chose the law as his profession and began practice when twenty-one. Governor Metcalfe, in 1829, made him commonwealth attorney. He had represented Pulaski county twice in the Kentucky legislature and served one term from the senatorial district of Lincoln and Pulaski counties. He moved to Danville in 1849 in order to give his children a collegiate education and had since resided here. In 1863 he was elected circuit judge and served until 1874, when he retired from active practice. He had been in failing health for some time. He leaves a wife and a large family, the living and dead of which are the gifted and lamented William McKee Fox, Hon. F. T. Fox, Jr., the prohibition candidate for governor of Kentucky; Hon. F. G. Fox, of Kansas City; the late Peter G. Fox, a well known turfman; C. C. Fox, Dr. Sam. Fox, of Texas; Thomas Fox, of Mt. Sterling; Mrs. A. M. Sea, of Louisville; Mrs. J. C. Caldwell, of this county, and the late John Fox.

The Last Victims.

ST. LOUIS, April 9.—The last of the miners of the Savanna, I. T., mine disaster who lost their lives by choke damp, were taken from the mine yesterday morning and buried, under the auspices of the I. O. O. F., the Knights of Labor and the Knights of Pythias. About five hundred miners from McAllister, attended the funeral. Four bodies of the victims of the explosion were recovered, but they are torn beyond recognition. The other two were supposed to have been in the slope at the time of the explosion and were blown to atoms.

News From the Eagle.

ST. JOHNS, N. F., April 9.—The sailing steamer Arctic arrived here from the ice-fields at 5 o'clock yesterday evening, with 1,000 young and old seals. She reports having spoken to the steamer Wolf on the 1st inst. The latter ship saw two plains of ice on the 27th ult., containing a number of seals belonging to the Eagle and marked by that ship's name and flag. It is, therefore, pretty certain the Eagle is all right.

Breaking a Millionaire's Will.

DETROIT, Mich., April 9.—Judge Jemison in the circuit court has decided to break the will of the late Francis Palms, the Detroit millionaire who left his estate in entail, and decided that the property must go to the heirs at law after paying the legacies. The suit against the instrument was brought by Miss Clotilde Palms, who has attained unwelcome prominence through the attention of Senator Jones, of Florida.

An Actress' Secret.

One often hears of the "actress' art," meaning the art of preserving one's personal appearance. No woman in the country can look at Maggie Mitchell and say that she is not well preserved. She is, well, beyond 50; yet her arm is as plump, her bust as full, and her animation as great as twenty-five years ago. Why? Because as Miss Mitchell says, she never had a care in her life. Her mode of life has always been exemplary in its regularity and simplicity, and she has never known the effects of late hours or the wearing fatigue of receptions, as they are known to society women. Under present conditions Maggie Mitchell, ten years hence, will be as lively and vivacious as she is now.—Pioneer Press.

Gen. Durbin Ward's Sword.

In his will the late Gen. Durbin Ward gave to his niece, Ella Ward, the jewel mounted sword which had been presented to him by the privates of his old regiment. He enjoins her that she shall "deliver it to her eldest son, should she ever be blessed with one, and if he should die, to the next oldest in succession, and with it the charge never to draw it in a bad cause, and to never leave it sheathed should a good one require its aid, and command him also to send it down to posterity to the eldest son in the direct line so long as any Ward blood can wield a sword, until that blessed time shall come when all swords shall be beaten into ploughshares."—New York Sun.

VIEWING THE WORK.

Distinguished Railroad Officials Visit Maysville—On Tour of Inspection of the "South Shore Road."

A party of distinguished railroad officials and contractors arrived here yesterday on a tour of inspection of the Maysville and Big Sandy Road. In the crowd were C. P. Huntington, the railroad king, Receiver H. E. Huntington, of the K. C., General W. C. Wickham, Vice President of the C & O., J. D. Yarrington, Division Superintendent of same road, Mr. Miller, Captain Honshell, C. B. Childe, Chief Engineer of the M. & B. S., and the following contractors: H. P. Mason, W. A. Rinehart, E. T. Powell, W. F. Dandridge, Con Shannahan, and E. W. Woolfolk. There were others in the crowd whose names were not learned. The party left Ashland Thursday morning by steamer Louise, which had been chartered for the trip. Horses were provided, and a great part of the road between Ashland and this point was gone over on horseback. As soon as the "Grand Mogul's" presence was learned he was called on by a number of our citizens. In a brief talk Mr. Huntington informed a representative of the BULLETIN that he had found favorable progress in the work along the route to this place. The work, however, was not as far advanced as he expected, nor was it being pushed as fast as he would like to have it. He said part of the delay had been caused by trouble over the rights of way. "Railroads are lots of trouble nowadays," added Mr. Huntington, "and this one is costing more than we expected. I shall be glad when it's finished."

Colonel Childe afterwards informed the BULLETIN that Mr. Huntington told the contractors the night before that "they could complete the road in ninety days, and that they must do it."

After spending a couple of hours here inspecting the work, the party left on their down trip, expecting to reach Covington to-day.

It is reported that Mr. Huntington has offered Mr. C. B. Pearce \$30,000 or \$35,000 for his residence and lot on west Second street for depot purposes, but the trade has not been closed. Mr. Pearce asks \$40,000, so it is reported.

The appointment of a committee by City Council Thursday night, on motion of Mr. Shannon, to confer with the next Court of Claims as to building a workhouse for city and county brings up a matter that ought to have been attended to long ago. What the city and the county has needed for years is a suitable place where persons guilty of petty offenses can be imprisoned at hard labor, instead of being kept in idleness at a big cost to the tax-payers. We trust the question will receive the attention it deserves.

"MAY Easter joys be thine." They will, if you attend "the Easter service," to-morrow at 11 o'clock in the Murphysville Methodist Episcopal Church, Rev. T. F. Garrett, pastor. Many things worth hearing and seeing at this Easter mission service. An imposing object built of immense blocks, made of gold, silver and tissue sheets, will be erected before the audience. There will be good music and recitations. Mr. Holman Boulden is expected to use the cornet. A handsome new stone-cloth picture, recently drawn by the pastor, will be unveiled.

SOMETHING REMARKABLE!

The manner in which HECHINGER & CO. are enabled to sell those fine Silk and Satin Lined Dress Suits, made out of the best imported Corkscrew, Wide-wale and Fancy Worsteds, at prices that are positively lower than you pay for ordinary made-up goods in any other Clothing House in the State, is something remarkable! When, however, you recollect that

This Firm Buys All Material Direct From First Hands, and Manufactures All of Its Clothing,

you then see that it is not so remarkable at all. They save all Manufacturers' profits and give it to their Customers. The stock of Children's Clothing, Hats, Underwear and Scarfs that Hechinger & Co. display this season is simply superb. Call in and see all of their display. It will brighten your ideas on goods and prices.

A Terrible Fire.

What a thrill of terror passes over us when we read the record of some fearful devastation by fire, and yet it is a fact that thousands are daily being consumed by the inward fire of fever, caused by consumption of the lungs, which could be subdued by Dr. Pierce's "Golden Medical Discovery."

Personal.

Thomas P. Browning, of Donnerail, is in town visiting relatives.

Misses Ollie and Mamie Current, of Paris, are visiting Mr. and Mrs. H. C. Sharp.

Mrs. Mary T. Caldwell, of Sharpsburg, has been spending a few days with her mother, Mrs. E. Taylor, at Washington.

Rev. Ezekiel Forman, of Mt. Sterling, was on a short visit to his relatives in and about Washington this week, but left for Flemingsburg yesterday to assist Rev. Wm. Hendrick in a protracted meeting.

Stock and Crops.

Mose Daulton & Bro. sold and shipped yesterday to L. T. Anderson, of Cincinnati, for Eastern parties, a fine dark roan, combined mare by Blackwood, Jr., dam Indian Chief.

James W. Fitzgerald has sold the two-year-old Elevator, by Enfield, to Samuel White for \$325.

James W. Fitzgerald informs us that Alcandre's book for this season is already filled, and that Enterprise's book is half filled. Parties wishing to breed to the latter stallion should notify Mr. Fitzgerald at once.

THERE will be no services in Mitchell's Chapel, Chester, M. E. Church, South, at Washington, and Old Stone Church to-morrow, the pastor, Rev. J. D. Redd, having been called to Cynthia to fill an engagement for Rev. H. P. Walker, who is engaged in a protracted meeting at Dover.

GEORGE ALLEN, colored, and Jack Duncan were brought down from Carlisle yesterday and lodged in jail. They have been sentenced to the penitentiary for two years each, Allen for attempting to wreck a passenger train, and Duncan for house-breaking, and were brought here for safe keeping, pending an appeal of their cases.

EASTER Sunday at the Methodist Episcopal Church will be appropriately observed. Flowers will adorn the altar. The choir will render one of the finest Easter anthems. The sermon in the morning, by Rev. Thomas Hanford, pastor, will show "Why Christ Should Rise." Baptism and reception of members. All are welcomed.

THE Ladies' Mite Society of the Methodist Episcopal Church will give an entertainment next Monday evening at half-past 7 o'clock, at the residence of Mrs. John Marshall Rains, on West Third street. These ladies have seldom appealed to the public, so a liberal patronage is solicited. Novel features appropriate to Easter will afford amusement. A dime will be charged for admission. Cake, fruit and ice cream at moderate prices.

Shackleford's Pharmacy.

Most attractive store in town—in "Cox Building." Fine old wines and liquors for medical purposes. Pure drugs. Toilet articles in great variety.

ABERDEEN ITEMS.

School board election Monday next. Subscription school began Monday last.

The election is over. Scott Spears, on giving up the Trusteeship, has the satisfaction of knowing that he has proven an honest and trustworthy official.

The Rev. Jackson is still holding services at the Baptist Church. He is highly spoken of as an able minister, and is gaining scores of friends.

James Hall and Mrs. Mary Miller have the sympathy of the community in their latest bereavement, the death of Mrs. James Hall, Mrs. Miller's daughter.

Call and examine A. T. Boswell's newly-received invoice of choice spring goods. Prices cut in two to insure quick sales.

Miss Nora Rees has departed for her home, Peebles Station, O., her school having closed last week. Miss Rees has made many warm friends here.

Riley Atkins, a former citizen of this place, but recently of Cincinnati, has moved here again.

Rev. J. Fulton is holding protracted services at Fitch's Chapel, this county, and is meeting with much success.

Whisky and business, like oil and water, won't mix. No moral comment necessary.

Ed. Rains is a good barber and a worthy man, and is deserving of patronage. He can always be found at his shop in shape to do an artist's job.

The J. B. Campbell property was sold recently by Sheriff Hebl to Foster Barbour, of Maysville, the consideration being so small, something over \$1,000, that it was really a sacrifice.

There is talk of building a new church, a commendable enterprise, as the ones we have are neither big enough nor creditable looking. The prosperity and morality of a town is generally judged by its churches. Start the ball to rolling and let the good work begin. The people in this town should have pride enough to have at least one good church building.

Next Monday is school board election. T. F. Hill is a candidate for re-election. Mr. Hill is a man well qualified in every sense of the word to fill the position. He is a man of intellectual ability, and his honesty is unquestioned. He has filled the office with credit and for the welfare of the community. In view of these facts, he should be re-elected in spite of all rings and cliques to the contrary. This is a matter of importance to Aberdeen's good people. It is not every Tom, Dick and Harry who is fit for school director, so select men who are capable and trustworthy.

NONPAREIL.

A New Way to Pay Old Debts.

Shakespeare tells how this can be accomplished in one of his immortal plays, but debts to nature must be paid on demand unless days of grace be obtained through the use of Dr. Pierce's "Golden Medical Discovery." It is not a "cure all" but invaluable for sore throat, bronchitis, asthma, catarrh, consumption, and all diseases of the pulmonary and other organs, caused by scrofula or "bad blood." Scrofulous ulcers, swellings and tumors are cured by its wonderful alternative action. By druggists.

Most Excellent.

J. J. Atkins, Chief of Police, Knoxville, Tenn., writes: "My family and I are beneficiaries of your most excellent medicine, Dr. King's New Discovery for consumption; having found it to be all that you claim for it, desire to testify to its virtue. My friends to whom I have recommended it, praise it at every opportunity."

LABOR AGAINST CAPITAL.

SECOND DAY'S SESSION OF THE NEW ENGLAND LASTERS' UNION.

Action Taken to Have Their Organization Extended Throughout the United States.—The Chicago Carpenters Confident—Various Other Labor Information.

Boston, April 9.—At the second day's session here yesterday of the Lasters' Protective union of New England, the report upon the state of the order showed that over 90 per cent of the strikes in which the organization has been engaged since its foundation in 1879, have been successful. Reports of the Worcester county lockout were received and were of a nature that the members of the union feel very confident of winning the fight in time, as they have sufficient money in the treasury to support all who are now locked out.

Resolutions were adopted counselling Worcester county members never to resume work until the obnoxious notices were removed, and pledging to them the entire support of the union.

A committee was appointed to report as to the advisability of extending the union into other portions of the United States. It was reported by the general secretary that applications for charters had been received by him from Philadelphia, Cincinnati, St. Louis, Chicago and New York city and state. It is thought that the union will to-day vote to extend its jurisdiction throughout the United States as rapidly as possible.

It is said that some important legislation will be passed to-day in relation to the stand which the union will take in the future toward the so-called "scabs." It is thought that while the union does not countenance violence in any degree toward a man who chooses to place himself in a position of a "scab," yet as the "scab" is the standing menace to the life of a labor organization, the proposed measure in regard to this class of wage workers will be of an uncompromising nature.

Chicago Carpenters.

CHICAGO, April 9.—The striking carpenters claim to-day that they are still confident of coming out ahead in their struggle for higher pay and shorter hours. The employers, they say will not long pull together. "The last meeting of the bosses," said one of the leaders to a reporter for the United Press this morning, "was visited by fifteen men who belonged to the National Builders association. The fifteen managed to push through the motion to have the meeting governed by the rules of their association and among those rules is one preventing the recognition of the Carpenters' union. The majority of the bosses will recognize us and would have defeated the motion had they known that such a provision was contained in it. We insist upon being recognized as a union."

The Hyde Park carpenters held a meeting last night and by a small majority passed a motion to return to work to-day. They will receive thirty-one and a half cents an hour. Some of the city carpenters consider this a blow to their cause.

Strike Spreading.

NEW YORK, April 9.—The executive committee of the Framers' union were notified yesterday that the stonemasons, carpenters and joiners, lathers and the bricklayers of unions 1, 3, 9, 14 and 29 had stopped work, and stood ready to do all in their power to win the fight for the framers. It is estimated that there are now 5,000 men in the building trades on a strike. At the headquarters of the strikers, 149 Johnson avenue, Williamsburgh, it was said that the bricklayers' union had written to their national executive committee, in Baltimore, asking the committee to order a general strike throughout the metropolitan district unless the troubles of the framers with their employers are speedily settled. A number of the framers yesterday secured contracts for work from builders and architects, and arranged with their fellows for the execution of the contracts. The bosses say they will not give in.

Congressman West's Circular.

SARATOGA, N. Y., April 9.—Congressman West has issued a circular to the striking employees in his paper bag factory at Ballston Spa, in which he says: "I am desirous that the peaceable relations which have heretofore existed between us as employer and employee may still continue, and I earnestly hope that all of my employees who have lately suspended work, may deem it for their best interest to again resume the places vacated by them without further notice. You and each of you are hereby notified that you may do so without further notice, and this invitation would seem to avoid all necessity for an interview or conferences, which I am confident would not result beneficially to either party." Mr. West will talk to his old employees, but he will not allow outside persons to dictate how he shall conduct his business.

Masons' Troubles.

WATERBURY, Conn., April 9.—The masons' strike still continues in this city. Last night the Masons' Builders' association adopted a resolution declaring that they would not employ members of either the Masons or Bricklayers' union, or the Hodcarriers' union, without proof that they had severed their connection with those organizations.

Do Not Approve of Their Acts.

PHILADELPHIA, April 9.—Prominent railroad officials in this city have expressed the opinion that the action of the interstate commerce commission in the long and short haul question will crush the entire measure. They say that there is not a railroad of any consequence in the entire country that will not make the same claim as that contended for by the southern railroads, and the justice of their claims cannot fail to be recognized. The commission by almost their first act yesterday concerning the southern railroads have arrayed against them every railroad that has directly or remotely a water route as a competitor, and further than this, they have taken a position that will unsettle the commercial affairs of the country for three months or more.

Gubernatorial Contest Given Up.

MINNEAPOLIS, Minn., April 9.—Mayor Ames has finally given up his contest for the governorship. In an interview he said: "I have become disgusted and resolved to go no further in the gubernatorial contest. All the evidence which I have I will keep and furnish for the next contest, and the candidate of the Democracy, back up by the facts which I can produce, will not be elected governor, but will have a solid Democratic legislature at his back."

AFTER THE STEWART ESTATE.

A Michigan Farmer Who Wants a Share of the Millionaire's Fortune.
NEW YORK, April 9.—A Detroit special says that John G. Falk, a farmer, of Shesawasse county, Michigan, is on his way to this city to look up evidence in support of his claim as an heir-at-law to the estate of A. T. Stewart. Falk traces his descent from the Stewart family through his maternal grandmother, Mrs. McKiernan, who it is claimed, was a niece of the dead millionaire.

When Stewart came to this country from Ireland he brought with him his favorite niece, then Margaret Massey, and the child for several years thereafter shared the frugal fare of the young merchant in the scantily furnished apartment back of the saleroom. Margaret married an Irish Catholic named McKiernan, thus incurring Stewart's aversion. The couple removed to Michigan and Mrs. McKiernan died in 1873 at her daughter's home. Falk is a son of this daughter, who left several children. They expect to share in the Stewart estate if the claim is successfully prosecuted by John.

Measles in Knoxville, Tennessee.

KNOXVILLE, Tenn., April 9.—A terrible epidemic of measles in an aggravated form is raging among the factory employees living in Brookside, a suburban village of this city. There have been sixty cases in fifteen houses, twelve of which proved fatal. Six children have died in one family during the past week and two others are expected to die. The disease is epidemic all over East Tennessee, but there is no other instance where it has proved fatal.

Michigan's Liquor Laws.

LANSING, Mich., April 9.—The returns announcing the defeat of the prohibitory amendment are generally accepted as correct here, and measures to regulate the liquor traffic will be brought forward in the legislature. One of these measures is copied from the local option law of Georgia. Another is a copy of the Ontario Scott act. It is believed that no legislation will be accomplished except such as will perfect the existing tax law.

Looks Suspicious.

HARRISBURG, Pa., April 9.—Agents of the Standard Oil company have been in the city of late, and it is not believed that the bill providing for a reduction in the charges of the Standard for storing and transporting oil will pass the legislature. The company's income would be reduced \$4,000,000 a year if it should pass. A few weeks ago it was announced as almost certain that the bill would pass.

The Weather.

WASHINGTON, April 9.—Fair weather, winds shifting to southerly, a slight rise in temperature.
